THE

MARBLE BASIN

COLLECTION

Sculptural, refined, and inherently luxurious, our marble basins are designed to transform everyday rituals into moments of quiet indulgence. Each piece is carved from carefully selected natural marble, celebrating the variations in tone and veining that make marble so distinctive. Balancing form and function, this collection brings an architectural quality to the bathroom - where craftsmanship is evident in every curve and detail.

LUSSO

“THE INHERENT STRENGTH OF MARBLE ENSURES ENDURING PERFORMANCE, WHILE ITS TACTILE RICHNESS ADDS A SENSE OF CALM PERMANENCE TO DAILY USE. EACH BASIN BECOMES MORE THAN A FIXTURE - IT IS A CONSIDERED DESIGN ELEMENT THAT ELEVATES THE ATMOSPHERE OF THE SPACE IT INHABITS.”

COUNTERTOP BASINS

Elegant and versatile, countertop basins are designed to sit proudly as focal points within the space. Their sculptural forms showcase the full beauty of marble, allowing intricate veining and rich tones to take centre stage. Perfect for contemporary interiors, they offer a refined, design-led aesthetic with a sense of effortless sophistication.

WALL HUNG BASINS

Minimalist in form yet rich in impact, wall hung basins create a clean, floating effect that enhances both light and space. Marble introduces a layer of depth and texture to these streamlined designs, resulting in pieces that feel both modern and timeless. Ideal for smaller bathrooms or those seeking a more architectural look, they combine practicality with understated elegance.

FREESTANDING BASINS

Bold and expressive, freestanding basins are designed to command attention. Carved as monolithic forms, they highlight marble in its most pure and sculptural state. These statement pieces transform the bathroom into a gallery-like space, where natural stone becomes both function and art - perfect for interiors that embrace drama, individuality, and uncompromising luxury.
